

RHC Lifting Ltd - Vacancies

Due to an increasing workload and expanding customer base we are seeking staff to fill the following positions based from our Yate office.

AUTOCAD technician/design engineer

To operate Autodesk Inventor / Autocad for drawing and design of lifting equipment and support structures. Experience of using Autodesk inventor and AutoCAD is essential, along with knowledge of stress analysis.

Mobile Service / Installation Engineer

To work on Electric Overhead Cranes, Hoists and general lifting equipment. The successful applicant will be multi-skilled and electrically qualified with good fault finding skills and will need to be able to work on VSD and PLC systems. You will need a flexible approach to your work and be able to cope with ever changing priorities and customer requirements. You will need to be self-motivated and able to work on your own initiative. This is a customer facing role so your good communication skills are required. Must be prepared to work overtime to provide customer support. A fully expensed service vehicle will be provided.

Pay rates dependant on skills and experience for all positions and include a contributory pension scheme.

Please send your CV with a covering letter including salary expectations to jobs@rhclifting.com
